

NEW UNSAVED CHANGES OPTION

It is now possible to save changes while switching between the flights. This is due to amendments we have introduced to the SCHEDULE section.

When switching from one flight to another without saving changes made on a previous flight, Leon will provide 3 options in a pop-up window:

- **SAVE** - saves changes on a flight
- **CANCEL** - allows remaining on a flight without saving changes
- **DISCARD** - switches to the next chosen flight without saving changes on the edited flight
