

In the section **SCHEDULE** you can add permits details to each leg.

The screenshot shows a 'Permission' dialog box with a table titled 'OVERFLIGHT PERMISSION(S)'. The table has columns: Country, Supplier, Validity, Revalid., Short Notice [h], and Status. There are two rows: one for Belarus (BLR) with status 'Confirmed' and one for Russia (RUS) with status 'Requested'. Below the table, there are 'UPLOAD FILES' buttons and checkboxes for each row. At the bottom, there are 'Save' and 'Cancel' buttons.

Country	Supplier	Validity	Revalid.	Short Notice [h]	Status
Belarus (BLR)	MS202/123	6	0	0	Confirmed
Russia (RUS)	MS202/4325	12	0	0	Requested

Adding permits details in section SCHEDULE

Open tab **CHECKLIST** (right-hand filter) and click '**Edit**' in landing or overflight permission item. A new pop-up window will open where you can add permit/permits details, such as:

- **Country** - click in the field to get the list of countries and select.
- **Supplier** - type supplier details.
- **Validity** - add how long permit is valid.
- **Revalid.** - add if permit can be revalidated.
- **Short Notice** - add if permit is valid for a short period of time.
- **Status** - change the status accordingly.

You can add more than 1 permit by clicking **+**. To delete details click trash bin icon.
