

Automatic crew copying

Automatic crew copying for multiple-leg trip

When you add a multiple-leg trip to Leon from a section SCHEDULE > TABLE you don't have to add the same crew members by clicking one leg by one and selecting crew in a right-hand filter (tab CREW).

Right now Leon will automatically **copy crew** inserted to the 1st leg to the other legs, as long as the trip is on the **same aircraft type**.

On the attached screenshot you can see that all crew members were added only to the first leg. The other 3 legs were added and once the trip was saved Leon displayed the same crew for all 3 legs.

This option also works if you add a single leg with crew, save it and then after some time add more legs to that trip - Leon would also copy crew from the 1st leg to the other ones.
