

Crew duty planner is able to delete different types of crew duty requests at one stroke in '**Crew Duties**' section.

Once duty requests have been added by the crew, you can decide whether to accept them or to reject.

It is possible to delete a **few types of requests** at one stroke (instead of clicking on each one of them).

Mark duty requests that should be deleted and a new pop-up window will show up with all previously defined types of duties in 'CDR Definition' section. To delete all of them, click on the icon '**Requests**'.

The screenshot shows a calendar for August with dates 11 through 23. The calendar cells contain various duty request codes: (V) for Vacation, (S) for Standby, (O) for Office, and (D) for Duty. A red box highlights the cells for August 11, 12, 13, 14, 15, and 16. A pop-up menu is open, showing a list of duty types under the 'Add/Edit' section and a 'Delete' section. The 'Delete' section lists 'Vacation (V)', 'Standby (S)', and 'Requests'. A red arrow points from a yellow callout box to the 'Requests' option in the 'Delete' section. The callout box contains the text: 'Click 'Requests' to delete all marked duties'.

August												
11	12	13	14	15	16	17	18	19	20	21	22	23
(V)	(V)		(S)		(S)			(O)	(O)	(O)		(O)

LEON D - Duty G-L

Pop-up menu content:

- Add/Edit
 - Off (Off)
 - Medical leave (M)
 - Training (T)
 - Duty D-LEON (D)
 - Duty G-LEON (D)
 - Duty M-LEON (D)
 - Duty SP-LEON (D)
 - Vacation (V)
 - Office (O)
 - Simulator (SIM)
 - X-COM (Q)
 - Standby (S)
 - Positioning (PSN)
- Delete
 - Vacation (V)
 - Standby (S)
 - Requests**

The same can be done by **crew members** adding requests in 'Crew duties' section - they are able to delete more than one type of request at one stroke.
