'EXPERIENCE' tab

**Experience** is a tab where you can insert the experience before joining the company or record the flights performed outside the company (instead of recording it on the X-COM aircraft).

To add a new experience simply click on the **NEW EXPERIENCE** button. This will add a new line to the list where the details of past experience/flight performed outside of the company can be added.

Extra columns with the approaches types can be added to the table by selecting the relevant ones from the dropdown list:

Add approach to table
Approaches
ILS cat II
ILS cat III
MLS
RNP-LNAV/VNAV
RNP-LNAV
RNP-AR
RNP-LPV
GPS

The data will be included in the cumulative duty.
