# User National ID

It is now possible to select a **'National ID'** as a Crew 'TRAVEL DOCUMENT' on a flight.

In order to select the 'National ID', it needs to be added to the User profile.

<u>First step</u> is editing CREW profile and clicking a button NEW NATIONAL ID

<u>Second step</u> is adding details, as displayed on the screenshot:

1. **Country** - select a country that issued an ID
2. **Type** - select National ID type from the dropdown selection that includes 'ID card', 'Military card', 'Residence card', etc
3. **No.** - insert National ID number
4. **Date of Issue**
5. **Expiry date**
6. **ID scan** - click on the 'UPLOAD FILES' button in order to upload the scan of the document

Once the 'National ID' is added it can be **selected on a flight** in the 'CREW' tab > 'TRAVEL DOCUMENT' section.
