

Some OM-A-7 regulations define different FDP and Duty period calculations when it comes to different types of **Standby** duties.

When you define **Standby** duty in the section Crew > Duties > CDR Definitions you can divide it into a few **types**:

- **Home Standby**
- **Airport Standby**
- **Hotel Standby**
- **Other Standby**

If your OM-A-7 has regulations regarding **different standby duties**, which determine the allowable FDP and Duty - those regulations will be set up in Leon by our IT dept. That means, each time you assign a different STB type, Leon will calculate it according to the FTL regulations.
