

This option can be **particularly helpful** when OPS department make lots of changes in Crew Duties section and it is desired that crew members are **informed about any change in their roster**. Whether it is about the brand new duty assigned or a duty that has just been replaced by a different one - Leon will send an email to the recipient.

The option is enabled to all crew members by default. In the profile page of each Leon user you can find a checkbox automatically ticked. By unticking it you disable sending roster changes emails.
