

'Reply to' in Movement Messages

There are 2 important changes to this functionality:

- **Location of 'Reply to' field** - this has been moved from 'Quotation email templates' to 'General settings' section. The email address entered in this field will populate when you reply to MVT message in your inbox.

Reply to email configuration ("Name" <email@address.com>)

MVT messages	<input <ops@airline.aero>"="" type="text" value="OPS"/>
--------------	---

- **Send messages about aircraft movements to Clients** - if this section is enabled it only has 'From' and 'Bcc' fields available now.

Send messages about aircraft movements to clients

Enable	<input checked="" type="checkbox"/>
Email "From" ("Name" <email@address.com>)*	<input <sales@airline.aero>"="" type="text" value="Sales"/>
Bcc	<input type="text"/>

Unticking the checkbox 'Enable' will deactivate this section permanently making it impossible to re-activate it.
