

Wizard Report new options

We have added a few **new options** into the **Wizard Report**: creating & saving personal reports and disabling the access to them to other users, creating positioning reports separately as well as new columns & new filters.

Visibility of the saved reports in Wizard

Each Leon user who has the access to the Wizard Report is now able to create and save a report to which no other user will have access.

After creating the report, right next to the field where the report can be named/renamed there is a checkbox

Visible only to me ☒

 - if it's marked, that report will be visible **ONLY** to the user who has created it - no other user will see it, unless the checkbox is unmarked.

If the checkbox is unmarked all users will see the report and will be able to view it **BUT** will not be able to make changes to it (SAVE button will be inactive).

On the main Wizard Report page, in a column **Visibility** each user can check which reports have been enabled to all users (indication 'Company') and which ones are blocked (indication 'Only me').
