

Wizard Report new options

We have added a few **new options** into the **Wizard Report**: new columns, new filters, creating & saving personal user reports and disabling the access to them to other users as well as creating positioning reports separately.

Visibility of the saved reports in Wizard

Each Leon user who has the access to the Wizard Report is now able to create and save a report to which no other user will have access.

After creating the report, right next to the field where the report can be named/renamed there is a checkbox **Visible only to me** ☒ - if it's marked, that report will be visible **ONLY** to the user who has created it - no other user will see it, unless the checkbox is unmarked.

If the checkbox is unmarked all users will see the report and will be able to view it **BUT** will not be able to make changes to it (SAVE button will be inactive).

On the main Wizard Report page, in a column **Visibility** each user can check which reports have been enabled to all users (indication 'Company') and which ones are blocked (indication 'Only me').
